

CLIMBING GYM HEAVEN

MACROS | VOLUMES | HOLDS | TRAINING AND ACCESSORIES | KIDS | WALLS

Climbing Gym Heaven is a platform dedicated to all climbers, gym owners, gym managers, route setters and investors. We provide a wide range of products and services by building climbing walls for your climbing gyms, providing flooring solutions, carpenter products and specific training elements. At Climbing Gym Heaven you will find a large variety of some of the best brands of climbing holds, macros, volumes, training equipment, and other climbing accessories.

We will provide you with everything you will ever need for making your projects a dream come true by equipping your gym with high-quality equipment or by simply refreshing your climbing walls.

Illusion

HOLDS & VOLUMES

WE SET THE TRENDS

Illusion is a brand, which offers unique climbing macros and volumes.

Illusion macros and volumes are produced in either Glass Reinforced Polyester (fiberglass) or wood. Most of the macros are available in Dual Texture or bi-color versions and all of our wood volumes are available with our without metric or imperial bolt-on nuts.

Illusion products, designed primarily for competition climbing, are designed to give maximum style, creativity, and dynamism to your routesetting.

Not only stunning to look at, but also extremely functional, Illusion macros and volumes provide a unique topography to your climbing walls.

SUPPORTING MODERN ROUTE SETTING

Infinity offers you a large variety of wooden volumes, perfect for individual use and infinite combinations, suitable for beginners, intermediate, and pro climbers.

A hand with black nail polish is touching a blue perforated metal plate. The plate has a small logo that says 'INFINI' and several circular holes. The background is a wooden surface with many small holes and scratches. The text 'Infinity volumes' is overlaid in white, bold font. A white horizontal line is positioned below the text.

Infinity volumes

DESIGNED TO ENCOURAGE CREATIVITY IN THE ROUTESETTING

Climb 1 offers timeless and classic wooden volumes that are sure to strengthen any route and are simply inevitable.

A woman with long dark hair in a ponytail is climbing a light-colored rock wall. She is wearing a white tank top, a red climbing harness, and a black climbing bag. She is holding a yellow and black rope. The text 'Climb1 volumes' is overlaid in large white font. A white horizontal line is positioned below the text. The background is a dark blue wall.

CLIMBING SYSTEMS AND TECHNOLOGIES FOR THE FUTURE

KILTER BOARD

Kilter Board is suitable for beginners, intermediate and advanced climbers, since you can climb the same problems on different overhang. There are also a lot of different sets of holds to choose from and different wall sizes to climb on.

We offer:

- 12x12 setup, which is most suitable for bigger climbing gyms,
- 8x12 setup in case your gym doesn't have enough space for the full board,
- 7x10 setup.

We provide you with a custom kickboard height and a completely freestanding frame.

MOON BOARD

Moon Board is essentially a training wall with a universal design, perfect for training:

- (especially) dynamic moves and
- improving body tension.

It consists of 40° overhang wall with relatively outdoor-like shapes. Useful mostly for advanced climbers, but most climbers use it to become one.

The Moon Board is perfect for tracking your progress and perfecting technique, as climbing problems never change.

TRAINING BOARDS

CAMPUS, SLOPER AND PEGBOARDS

Campus Board - the Campus Board is the best tool for power and strength training, a must have for both intermediate and advanced climbers. Standard wall angle at 18°, the Campus Board surface starts 1 m away from the wall and 1,6 m above the ground, making the first moves more comfortable. Training on the Campus Board results in improvement of motor skill training, increased finger strength, greater lock off power and upper body strength.

Sloper Board - Sloper Board offers training for an open-handed grip. Perfect for an additional warm-up and cool-down.

Peg Board - Peg Board is a simple but dynamic addition to strength and upper body training. It is an excellent tool for stability exercise with an enhancing effect on the strength endurance. Peg Board stimulates smaller muscles, which are usually more difficult to reach through regular free weight or body weight exercise. Regular Peg Board training contributes to the prevention of injuries.

CHILDREN PLAYGROUND EQUIPMENT

The main goal of children playground division is to bring climbing closer to the children. It started back in the year 2008, when we developed a climbing wall in a shape, that attracts children – an elephant. Later also other shapes followed, mainly animals, but as well rock shaped climbing walls.

LABYRINTH

The labyrinth is a custom-made product, that blends in the climbing wall sub construction. It includes tunnels, that are connected with another. Children can enter one opening, wonder through the maze of tunnels and emerge out of a different opening. This product offers a fun and adrenaline experience for the user and is perfect for children climbing walls, climbing centers with special section for kids, school walls or amusement centers.

CLIMBING WALLS FOR KIDS

It is our vision to bring climbing closer to children. We offer products, that are specially designed for children, that enables them to fulfill their climbing potential to the fullest.

ALL AGES

Wall design, suitable for children of all ages

COLORS AND SHAPES

Colours and shapes, that children find interesting

SURFACE

Adjusted climbing surfaces and edge protection

HOLDS

Holds shaped specially for kids
