SPRING / SUMMER

YYVERTICAL.COM

Smart Products for Vertical Sports

YY Vertical has been providing comfort to climbers since 2013 by offering well-designed products. From belay glasses to climbing hangboard, our products have proven themselves in the market.

To provide smart solutions to enjoy your sports better.

- **Smart ?**

We are committed to creating intelligent products based on observation and optimization.

- **Vertical Sports ?**

We mainly focus on climbing, but not only ! Our ambition also extends to sports with elevation changes (trail running, cycling, skiing...)

Today we have two areas of development : **climbing and recovery** for Vertical Sports.

> CLIMBING

Our goal is to accompany the climber from A to Z in their practice (warm-up, training, climbing, recovery).

> RECOVERY

Since 2021, YY Vertical has been designing portable massage devices adapted to the recovery of Vertical Sports.

VERTICALBOARD RANGE

VERTICALBOARD LIGHT

THE MOST ACCESSIBLE HANGBOARD (5B>6C+)

The VerticalBoard Light has been designed for beginner climbers looking for an essential and accessible training tool. The great classics of climbing training are present : jugs, 4 finger pockets, two knuckles deep pockets, 1 pad deep pockets. The ideal to start training!

Having some trouble doing pull-ups? No problem! This hangboard allows you to attach an elastic band to make the exercises easier (sold separately).

*Too easy? It is possible to upgrade your hangboard by increasing the difficulty by adding 10mm depth inserts (sold separately).

7 DIFFERENT GRIPS

- Dimensions : 54 × 9 × 5cm
- Weight : 800g
- Holds : 20mm, 25mm, 45mm
- Central handle : 40mm
- Slopers : 30°, 20°
- 2 jugs
- Holds + inserts (not included) :
10, 15, 35 mm + 20, 30 mm (center)

VERTICALBOARD FIRST

START TRAINING SERIOUSLY (5B > 7C)

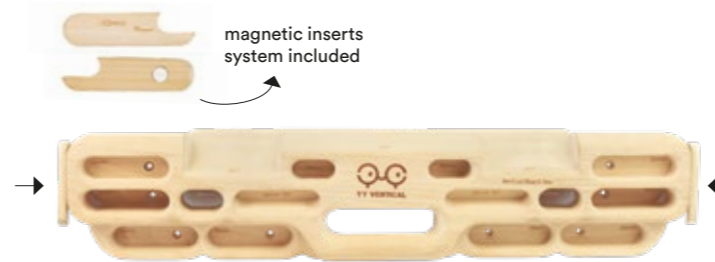

The VerticalBoard First is suitable for intermediated climbers who want to get stronger to complete their projects. A multitude of different depths are present to gradually train up to your objectives (45mm > 20mm).

Having some trouble doing pull-ups? No problem! This hangboard allows you to attach an elastic band to make the exercises easier (sold separately).

*Too easy? It is possible to upgrade your hangboard by increasing the difficulty by adding 10mm depth inserts (sold separately).

10 DIFFERENT GRIPS

- Dimensions : 54 × 13 × 5cm
- Weight : 920g
- Holds : 45mm, 33mm, 25mm, 22mm, 20mm
- Central handle : 40mm, 24mm
- Slopers : 35° + 20°
- 2 jugs
- Holds + inserts (not included) :
10, 12, 15, 23, 35mm + 14, 20, 30mm (center)

VERTICALBOARD ONE

THE MOST VERSATILE CLIMBING HANGBOARD (5B > 8B)

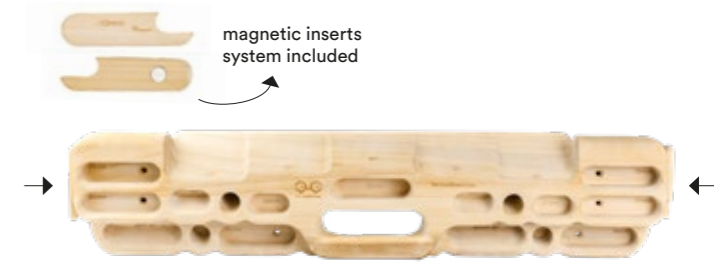

The VerticalBoard One is the flagship of the Verticalboard range. It is perfectly suitable to accompany the climber on the long term in his realisation of ever more motivating projects. It combines versatility, comfort and progressiveness with its 15 different grips, its central handle and its 10mm magnetic inserts (*included*). This hangboard will introduce you to specific grips (*two pocket fingers, included rulers*) offering a complete and relevant training.

The central handle allows one-armed work-outs and is particularly suitable as an attachment point for an elastic band to lighten yourself on various exercises or warm ups.

The VerticalBoard One also includes 10mm depth magnetic inserts to challenge yourself. Afraid of losing the inserts? No problem, you can store them on the magnetic supports located on each side of the hangboard. The VerticalBoard One is ideal for training without limits !

15 DIFFERENT GRIPS

- Dimensions : 62 × 13 × 5,5cm
- Weight : 1,685 kg
- Holds : 45mm, 25mm, 20mm, 18mm
- Holds + inserts : 35mm, 15mm, 10mm, 8mm
- Inclined holds : 25mm, 30°
- Two fingers pockets : 50mm, 30mm
- Slopers : 35°, 20°
- 2 jugs + central handle

VERTICALBOARD EVO

IDEAL TO TURN INTO A PRO (6C > 9C)

The VerticalBoard Evo was created for expert climbers to achieve their wildest goals through training on difficult and specific holds. To do so, the Verticalboard Evo comes with monos, two finger pockets, inclined pockets and challenging slopers, while still keeping easy and essential grips to guarantee good warm-ups and progression.

The central handle allows one-armed work-outs and is particularly suited as an attachment point for an elastic band in order to lighten yourself on various exercises or warm-ups.

The VerticalBoard Evo also includes 10mm depth magnetic inserts to challenge yourself. Afraid of losing the inserts? No problem, you can store them on the magnetic supports located on each side of the hangboard.

19 DIFFERENT GRIPS

- Dimensions : 65 × 14 × 5,5cm
- Weight : 1,55 kg
- Holds : 18mm, 20mm, 25mm + 40mm (centre)
- Holds + inserts : 8mm, 10mm, 15mm + 20mm, 30mm (centre)
- Inclined holds : 30mm / 35°
- Two fingers pockets : 20mm
- Inclined two fingers pockets : 25mm / 30°
- Mono : 1 knucle + 2 knuckles
- Slopers : 43°, 38° + 30° (center)
- 2 jugs + central handle

4 TRAINING HANGBOARDS TO ADAPT TO THE NEEDS OF EACH CLIMBER

The VerticalBoard range has been designed to work on **strength, resistance and endurance** during your climbing training. These training hangboards are particularly suitable for **strengthening the muscular, tendon and ligament** structures of the fingers, forearms and arms and back that are solicited in climbing.

The VerticalBoard hangboards are made of poplar wood, offering **excellent grip and respect** for the skin. The rounded holds angles have also been designed to be as **comfortable and ergonomic** as possible for daily workouts.

Designed in the French Alps, the VerticalBoard range was created to allow every climber from **beginner to expert** to find the hangboard adapted to his/her objectives and training.

All the boards have been **tested (and approved) by experienced climbers and coaches**. Each board presents a solution to install an elastic band to do suspension exercises or lighten pull-ups.

The whole range is compatible with our magnetic inserts system to **challenge yourself** by reducing the holds depths by 10mm (Inserts are included with the VerticalBoard One and Evo and all board have magnetic supports on each side).

KEY HOLDER RANGE

KEYHOLDER CIRCLE KEYHOLDER MOUNTAIN SMART KEY HOLDER FOR CLIMBERS

No more losing your keys with our range of Keyholders !
These original key rings with a minimalist design will delight climbing enthusiasts. Inspired by our climbing experience, we have designed cracks to always have a bit of mountain at home. The principle is simple, just place the various climbing nuts (not for climbing use) in the cracks to store your keys. Two fixing systems are included to hang your Keyholder to your wall (adhesive or screws).

Available in 3 models:
Mountain (Maple) or Circle (Maple or Cherry) model.

Circle:
Dimensions : 12,8 x 3 cm
Weight : 235g

Mountain:
Dimensions : 14,7 x 12,3 x 3 cm
Weight : 160g

Includes :
1 x Keyholder
4 x Climbing nuts rings (not for climbing)
1 x Notice
1 x Template

BRUSHES RANGE

INFINITY BRUSH (SMALL/LARGE)

THE 3X MORE DURABLE AND 3X MORE EFFICIENT BRUSH

Tested and approved by our partner climbing gyms, the Infinity Brush is now on the market! This brush is distinguished by its very high density of fine-tipped and rigid hair ($\varnothing 0.3mm$ at the base, $\varnothing 0.05mm$ at the tip). The sharp hair innovation allows it to adapt to complex grip shapes and to remove climbing chalk in the nooks and crannies as well as deep within the grain of the holds (*artificial and natural*) to clean them thoroughly.

The result: incomparable brushing! Three times more efficient than a regular brush*, it is formidable against climbing chalk encrusted in holds. Suitable for indoors, the Infinity Brush is the must-have brush for climbing gyms. For the outdoor, the brush is also suitable for removing moss, dust and climbing chalk on hard rock (*we do not recommend using it on more fragile rocks, such as limestone or sandstone type*).

The Infinity Brush is a durable brush. Its nylon hair are three times more durable than boar hair* and its bamboo handle makes it a very resistant brush. Bamboo is renewable, recyclable and sustainable: it is a fast growing, natural grass that rarely needs to be replanted after cutting it.

In short, the Infinity Brush is an efficient, high-durability, vegan and elegant brush. To try it is to adopt it!

*Performance tests carried out in collaboration with climbing gyms

Two different sizes available: S and L

SMALL
Dimensions : 15 x 175 x 25 mm
Weight : 25g

LARGE
Dimensions : 33 x 195 x 30 mm
Weight : 65g

VERTICALBRUSH (SMALL/LARGE)

AN UPCYCLED, PERFORMANCE ACCESSIBLE BRUSH

In an eco-design approach, YY Vertical created the VerticalBrush: an upcycled climbing brush made from wood scraps of the VerticalBoard training hanboards.

This poplar brush is strong and effective, and it has a high density of boar hair which is ideal to brush climbing chalk out of holds and pockets. This climbing brush is amongst the most natural and effective brushes available on the market, and is available at an affordable price.

Two different sizes available : S and L

SMALL
Dimensions : 1,5 x 17,7 x 1 cm
Weight : 20g

LARGE
Dimensions : 3 x 19 x 1,1 cm
Weight : 35g
